🎓 EDUCATION

Nanjing University, Nanjing, Jiangsu

2021 – Present

Undergraduate Student School of Artificial Intelligence

Major Courses Computer Systems (93), Program Design Training (99), Introduction to Artificial Intelligence (95), Robotics (90), Knowledge Representation and Processing (96), Neuroscience (90)

👥 EXPERIENCE

Nanjing University NLP Research Group

February 2023 – Present

Joined Nanjing University's NLP group in April 2023, studying under Professor Dai Xinyu and Wu Zhen

- Data Selection for Instruction Tuning (Independently responsible, currently in the experimental stage)
- Multi-CoT Learning Based on VAE (Expected to submit to ACL 2024)

HKU IDS Summer Camp

June 2023 – September 2023

Discussed Professor Ma Yi's work on the white-box series and learned about data science.

AI YIZHI

March 2023 – December 2023

Technical Lead Advisor: Zhou Zhihua

I built a knowledge circulation service platform driven by learnware technology, generating knowledge reports through virtual experts, developing tools and fine-tuning on the ChatGLM framework.

2022 Nanjing University NLP Summer Camp

July 2022 – September 2022

Outstanding Participant Advisor: Huang Shujian Group Leader: Cheng Xianzhi

Replicated works like ClipScore and explored fine-tuning methods for Clip on datasets of manually annotated image-text similarity scores.

⚙️ IT SKILLS

- Programming Languages: Python > C > C++ > Java
- Platforms: Linux, Windows
